

# ATIONET platform is a fleet management service with an innovate and unique market offering.

ATIONET allows you to manage all kinds of sales actions easily and safely.

ATIONET is a Web Head Office system for Fleet Services Companies. It allows the processing of transactions from any POS application through simple and very reliable interfaces.

ATIONET can be installed in Gas Stations with one or multiple Fleet Service Programs. Web Management allows fleet managers to access full information of its vehicles.

ATIONET enables the Fleet Manager to operate, monitor, change and edit fleet information in real time.
