THE MOST POWERFUL, COMPACT AND INTEGRATED SOLUTION TO MANAGE YOUR GAS STATION

Control Gas POS AiO is ATIO's latest offering for those Clients that need to manage their Gas Station using World-Class best practices, priorizing ease-of-use and at an afforadable price.

CG POS AiO combines the functionality of a C-Store Point of Sale with a Self Service Cashier and a wireless hand held device for full service attendants.

Integrates in a single unit a State-of-the-art Point of Sale with a Pump Controller and an ATG (depending on selected configuration).
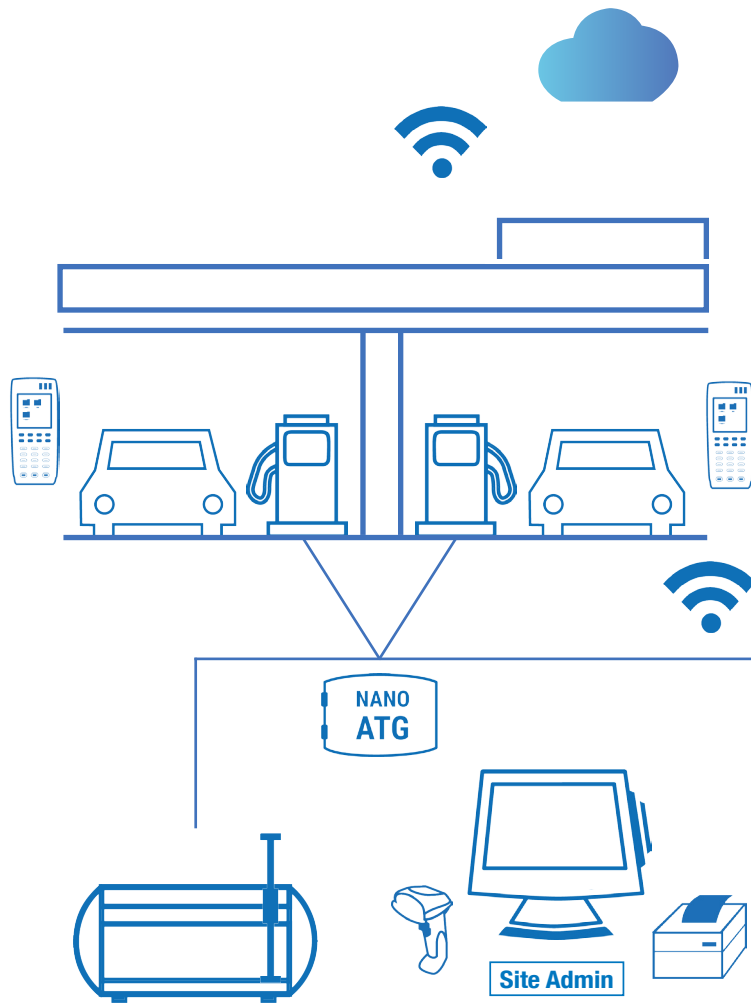

Wether you are upgrading an absolete existing system or automating the station for the first time, ControGas POS AiO is the right way to reach the future with the lowest investment.

SUPPORTED TECHNOLOGIES

• Up to 6 Fueling Positions
• Up to 3 tanks
• Multiple Pump brands
• Wireless Customer PIN PAD
• Up to 2 Handheld wireless full service terminals

ARCHITECTURE

Site Admin

Manage you Point of Sale, Close Shifts and get reports from the included administration software that runs on the same unit or can be executed from any PC at the site.

All-in-ONE

Workspace optimization: Operate the whole system from a single integrated hardware designed to sit on the counter with a powerfull Customer Display.

PIN PAD

Wireless PIN PAD, for those customers who want to increase their fleet card security adding a PIN.
